

# Web Filter

## KEEP YOUR STUDENTS SAFE

The internet is used more than ever in your schools, and you need to ensure that it's safe, effective, and adhering to Prevent Duty, Ofsted, IWF and e-safety compliance. Web Filter provides the controls, reports, and customisability you need to keep web use appropriate. From the smallest schools to the largest Local Authorities, Web Filter scales and grows with your needs.

### Any device, any time

Flexible policies let you ensure safety, e-safety compliance, and policy enforcement on networked and mobile devices – on- and off-site.

### Powerful SSL insight

See, control and report on traffic across SSL sites like Google and YouTube for maximum insight across an increasingly secure web.

### Detailed reports

From dashboards to drill-downs to real-time reports to custom reports, you see what you need when you need it. Reports can easily be automated and shared.

### AI Database

Our AI-driven database combines our intelligent robot army, human team, and network of customers for real-time categorisation and unparalleled accuracy.
